

# INSTALLATION GUIDE

## OWNER'S GUIDE

### MODEL 706 WRU-B (CL-200) WINDOW ROLL UP MODULE

#### STEP ONE

When installing the window roll-up module, you must first locate the "window up" wires for both the driver and passenger windows at the master switch. This switch is usually on the driver's door. After locating these wires you will need to test them for 12 volt when you use the switch to roll up the window, test these wires one at a time making sure that these wires show a voltage when the windows are rolled up, then cut both of these wires in two. Test these wires to find which is the switch side wire and which is the motor wire. With these wires cut, take both of the driver's "window up" (window first) wire and hold the switch in the UP position. Test both of these wires. The switch side wire will show +12 volts and the motor side wire will show ground. Mark these wires and set them aside. Do the same with the passenger "window up" (window second) wire. Press and hold the passenger up switch (again from the driver's side) and test both of these wires. The switch side wire will show +12 volts and the motor side wire will show ground. Mark these wires and set the aside.

#### STEP TWO

Install the module as shown in the wiring diagram in between both of the "roll up" wires that you have cut in two for the driver and passenger window wires.

#### STEP THREE

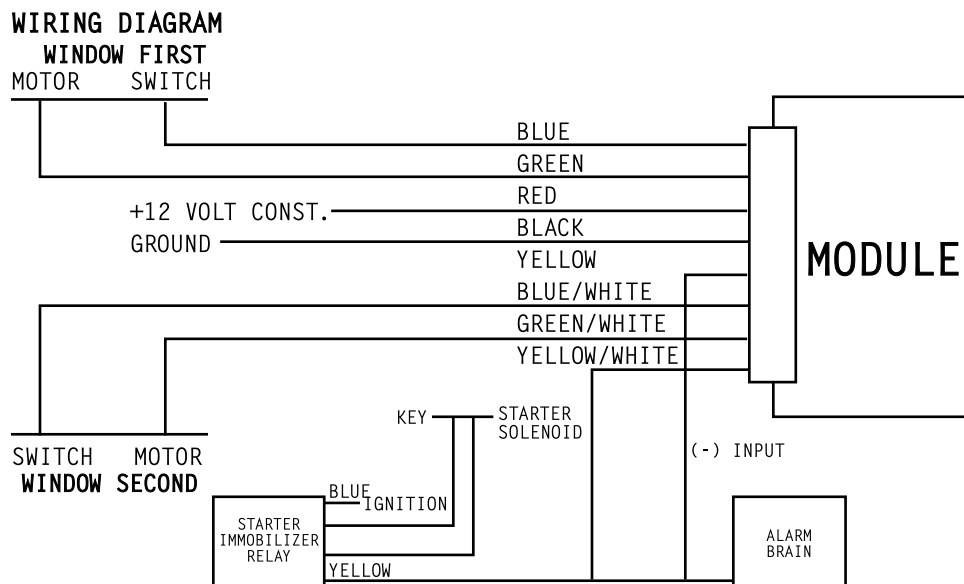

Attach the **RED** wire to +12 volt constant power and the **BLACK** wire to ground.

#### STEP FOUR

The **YELLOW WITH WHITE STRIPE** wire will only be used if you are tying the module #706 into a starter immobilizer output with an active starter immobilizer. With any connection, tape this wire up and do not use.

#### STEP FIVE

Attach the **YELLOW** "activation" wire to the negative (-) output wire from the unit. When this wire is activated by a ground the windows will roll up.

#### Technical Assistance

All tech personnel are expertly qualified to answer any technical questions.

Technicians are available Monday through Friday from 9:00 a.m. until 8:00 p.m. and Saturday 10:00 a.m. until 4:00 p.m.

#### Address

288 Canton Avenue • Wintersville, Ohio 43953

#### Telephone

Phone: 740-264-4710 • 800-878-8007 • Fax: 740-264-7306
